# Tribble Nurseries

TRIBBLE BROS., PROPS.

## Walnut Specialists

ELK GROVE

CALIFORNIA

### ABOUT US

We ship to every State in the Union and to many foreign countries. Up to April 1, 1914, we had shipped 57,856 orders since our beginning in the Nursery business, and have had only seven complaints and several thousand letters from pleased patrons.

Have never had any tree of consignment condemned by Horticultural Inspector.

### OUR TREES

We grow our own trees, with the exception of Citrus trees. At Vacaville we have an Expert Horticulturist to select buds for us. At Lodi we make these selections ourselves as well as from our own orchards at Elk Grove.

### OUR SERVICE TO YOU

If you do not know what to plant, write us what kind of soil you have, giving depth to hard-pan (if any), water conditions, etc., and we will advise you.

### DISEASES AND PESTS

We are always glad to advise our Patrons what to do at any time trouble of any kind may arise. We have made this an especial study, having collected several hundred books and bulletins on every topic of this kind. Advice given on cultivation, irrigation and fertilizing.

### WALNUT SPECIALISTS

We began the walnut work 12 years ago, which is four years before any other people took this up in Northern California, except in selling seedlings and the one time Nursery of the late Felix Gillet of Nevada City. Some grafted varieties have been bearing here for more than 20 years, scions come from France.

### WHAT YOU SHOULD KNOW

Does the Eureka walnut resist blight as claimed? What walnuts are best for Northern and Central California? Are the claims for the Wiltz San Jose Mayette correct? Does the Willson Walnut Blight? Are the Franquette, Meylan and Parisienne shy bearers as claimed?

### VARIETIES

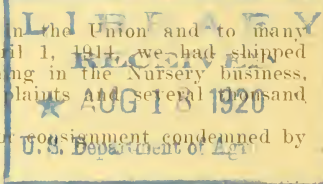

We have tried over 70 varieties of walnuts, impartially and under exactly the same conditions.

### PECANS

We were first to take up the culture of the Mammoth Paper-Shell Pecans of the Southern States, and our efforts have met with success. Many are taking up the planting of these fine nuts and during last season we sold trees to plant over 1000 acres in different parts of the State.

### PRICES

We are offering the best to be had in the tree line at less prices than other reputable nurseries. By closely comparing this list with others you receive you will note this.

5 at 10, 50 at 100 and 500 at 1000 rates.

### APPLES ON APPLE ROOT

	Each	Per 10	Per 100	Per 1000
4 to 6 ft. ....	\$0.20	\$1.50	\$12.00	\$100.00
